### Agenda

**Questions** - Going back to writing your name on the back board if you have questions. Keeping track of each of you and your questions is too much for me. Yes I do have limits.

**Socialization** - Acknowledging that you need breaks, and that you need social time, there is now a 'Social Table' in the back of the room. The rules are:

- Only one group at a time (max 4).
- Only twice per hour.
- About 5 minutes per time.
- Sign in and out!!!

You have two work spaces, your notebook and your computer.

The notebook is easy.

Simply keep a table of contents and always start on a new page.

Honestly, have you ever filled a notebook...

Have you ever used the left over space???

Your computer...

YOU MUST HAVE A PHYSICAL SCIENCE FOLDER.

\*\*students scramble to get one on their computer\*\*

It should be under the folder that is 'yourname'.

\*\*insert demonstration\*\*

You should then have a folder for each activity.

***ALWAYS SAVE YOUR VIDEOS and TRACKER FILES***

How many of you work your best when you are surrounded with those you enjoy talking to the most?

YOU DON'T!!!

\*\*I'm super excited that I have my own room to work in at home now!!!\*\*

In general, you have space in here, spread out, work in pairs, give yourself your best option to focus!

- Set a goal each day
  - Example - Today I will copy the notes for activity 4, take the video and process the video.
- Reflect if you hit your goal, and if not, why
- Take breaks/rewards!
  - When you get one of your things done, take a break, watch that one video or listen to a favorite song, talk with friends in the back, and do nothing else relax.
  - About 5 minutes.
